Invitation to Join the Interop Introductory Webinar for the 10th International Interoperability Test Event

Dear all,

We are pleased to invite you to the interop introductory webinar for the 10th International Interoperability Test Event, scheduled to take place from the 3rd to 5th of October in Sydney, hosted by Austroads and coordinated by MATTR.

This webinar is an opportunity to learn more about the upcoming test event. Interested parties are encouraged to register any time before the webinar to receive an invitation.

The coordinator will host two online introductory webinars:

- APAC/US-friendly: August 13, 11:00-11:45 PM UTC
- EU/APAC-friendly: August 14, 8:00-8:45 AM UTC

During these webinars, we will discuss the event schedule, prerequisites, scope, and test procedures. Attendees will also have the opportunity to ask questions.

For a high-level overview of the test event and to register for the introductory webinar, please visit the test event website: <https://www.austroadsinterop.com.au/>.

Please reach out to the test event coordinator if you already have specific questions on the webinar: Austroads.IVC24.Interop.Event@mattr.global. If you cannot join the webinar, you will be able to watch the recording later.

After the webinar, the test event website will allow interested parties to register for the actual test event and download a more detailed Test Event Document. Please lookout for updates.

We look forward to seeing you at the webinar.

Best regards,

Oliver Terbu
