

2. Programme Structure & Governance

3. IE Overall Plan and Deliverables

4. IE Progress to date

Governance & Reporting:

- Established the implementation phase governance model and reporting
- Revised Implementation Entity Steering Group (IESG) meeting and membership
- Formal Programme Management governance implemented
- Formal Working Groups (WGs) established

Planning:

- A detailed programme plan for Open Data (March 2017) has been produced and baselined, detailed CMA9 plans are being validated with critical dependencies
- A high level 2018 roadmap for Read / Write has been produced and is under review with the CMA9

Key achievements:

- Outline Solution Design for March 2017, Open Data
- Test Strategy
- Sourcing Approach for Infrastructure
- Target Operating Model (TOM) for March 2017, Operational Governance

5. Inter-Dependencies

Upstream:

- PDS2
- General Data Privacy Regulations (GDPR)
- RTS

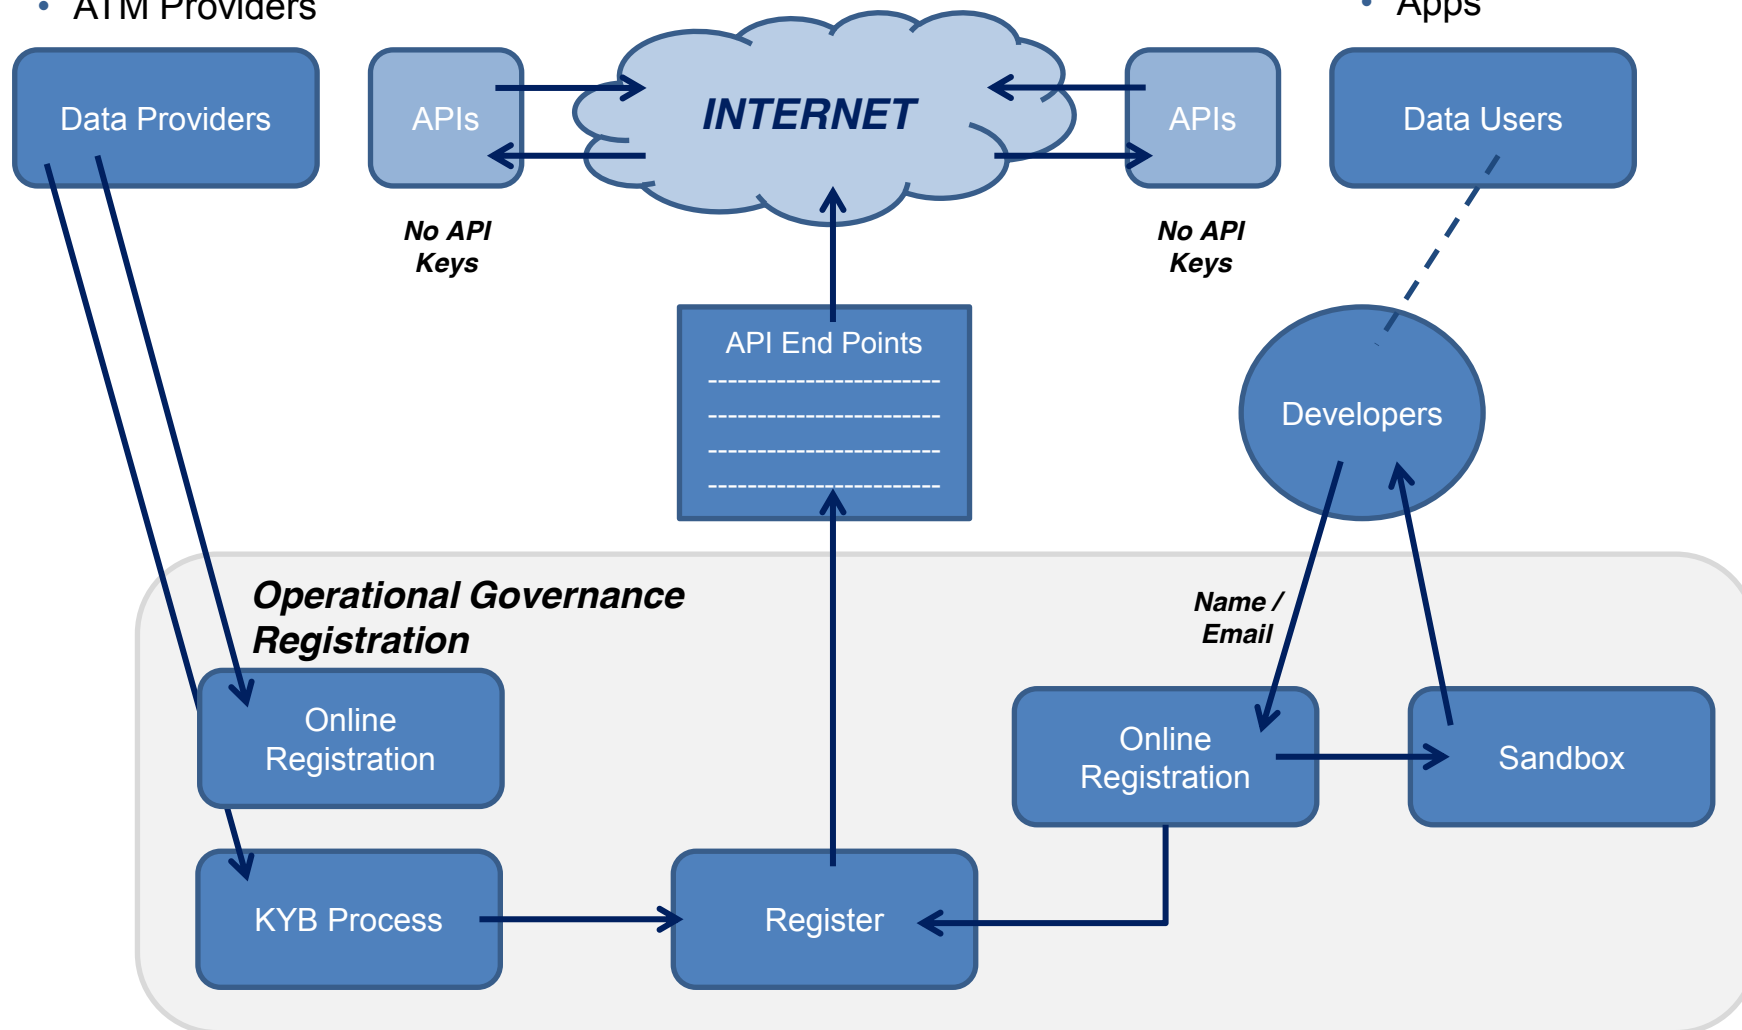

Downstream:

- Payment Strategy Forum (PSF)
- Confirmation of PAYEE
- NESTA
- PSD2
- Making Tax digital
- Customer access to transactions history
- Competition to develop SME comparison tools
- Loan rate transparency
- Publication of SME lending prices
- Commercialisation of APIs

6. Simplified Architecture slides for 2017

- CMA9
- Challengers
- ATM Providers

- Search Engines
- PCWs
- Apps

7. Simplified Architecture slides for 2018
